Profile Statement

Web Developer with 2 years of experience in Angular, Laravel, and MySQL. Completed training in Microsoft Dynamics 365 CRM & Power Platform. Interested in opportunities across web development, backend/API development, and CRM/Power Platform technologies.

Education

B.E. – Electronics and Communication Engineering

Kathir College of Engineering, Coimbatore | 2022 | CGPA: 7.91/10

Professional Experience

Web Application Developer

Aurum Tech Services, Coimbatore

August 2023 – Present

- Built ERP features using **Angular 18**, **Laravel 10**, and **MySQL** across Accounts, Transactions, Settings, and E-Pay modules.
 - Migrated legacy ERP screens to a modern Angular–Laravel structure for better speed and usability.
 - Developed reusable UI components and optimized SQL queries & APIs for faster performance.
 - Worked with jewellery clients for requirements, product demos, training, and day-to-day support.
 - Delivered bug fixes, UI/UX updates, and customizations based on client feedback.
 - Collaborated with the team to improve code quality, debugging, and deployment processes.
-

Projects

ERP Application

- Customized ERP modules as per each client's workflow and business needs.
- Added new fields, filters, report changes, and UI improvements based on client requests.
- Improved overall ERP performance by optimizing SQL queries and refactoring APIs.

CRM & Power Platform (Training-Based)

- Created custom entities, forms, and views in Dynamics 365.
- Built a basic Canvas App and simple Power Automate flows.
- Practiced Dataverse customizations and solution management basics.
